As Covid-19 Pandemic hit the second wave, created havoc in the lives of almost everyone. The new normal was adopted since the first wave – Mask, Social Distance, Frequent Handwash etc. But, in spite of these precautions, we had to face the second wave. So, in support of SKIT community, @SKIT under NSS cell, we formed a war room on 30<sup>th</sup> of April 2021 to spread awareness and support covid patients on the government process/guidelines. Few SKIT organizational guidelines followed:-

### WHAT WE DO

- 1) We help patients in generating BU numbers through BBMP Helpline
- 2) We help patients in giving them confidence, moral support.
- 3) We follow up with BBMP/Authorities to get bed for patients in need
- 4) Take help of other NGO if we face challenges.
- 5) Give patients information available with us regarding Home isolation facilities offered by hospitals
- 6) We provide information about oxygen cylinder vendors (Sometimes its not accurate)
- 7) Nurse services availability information to patients

### WHAT WE DONT DO

- 1) Don't discuss or involve in Private hospitals bed bookings
- 2) Educate patients to go through BBMP for any bed bookings
- 3) Don't suggest or involve in bed booking agents for hospitals
- 4) Don't share patients information/contact details to such brokers

We started this initiative to support SKIT community but we very gladly say that we got inquiries from general public as well and with god's grace and dedicated service from our volunteers, we were able to help many of them. As many as 40 cases were approached and we were able to help at least 30 of them with bed allocation. Apart from this there were many inquiries for oxygen and other things for which they were properly guided by our volunteers. Along with this, the team involved in verifying and validating the facts and forwards, creating awareness about Covid situation, SRF ids, BU numbers, precautionary measures etc.
